

## Meeting with Bersabeh Zenebe

Michelle Kim

- pastel color palette - which kind of will drive the poetic feel to it
- pages will alternate between image of her, to images of her work, and then also unrelated images of poetic symbols like flowers, pencils, etc.
- there should be an overarching header that displays whether the page is about her, her work, her career, etc.
- header in sans serif
- body text will be serif to accompany the images so that it gives the page a more aged and mature look
- if I believe it is a good fit, add some quotes on the page
  - ok if this part doesn't work
- any other special effects like gradients, etc., use my best judgement
